

# Requests

To all and sundry. A request. We need photos and stories of all aspects of RAE Tn operations, places we've been, our people and what they did, regardless of rank or unit.

Please try not to embarrass your mates or yourself too much, but a bit of a laugh at someone else's expense is always good for a chuckle. Having said that if you have a story of an incident or trip you would like to share please send it in along with any photos that may help with the yarn.

Do not send photo prints or slides as we do not want to be responsible for your precious memories. Please have them scanned into digital .jpg format and no larger the 750MB in size. Most slides that we took 50 years ago don't look much better than we do now, but we will attempt to clean them up for use.

Please provide as much information as you can with the photo. In particular the names of the diggers in them, what was happening, approximate date and the location/ship/unit. If you do not know send it anyway and someone may be able to come up with some information. We can not guarantee that we will use all photos and stories here or in NTM, but we will try.

We are not getting any younger gents, so if we can get our story out it will survive because the Australian War Memorial will permanently archive our site.
